ALOHA AT THE BEACH HOUSE

True to its name, The Beach House captures the pure magic of Maui to perfection. Past bronze gates and a tranquil Japanese-inspired courtyard garden, you enter a tropical paradise that is treasured as a family legacy along 80 feet of reef-protected oceanfront at Baby Beach in the historic district, steps from Lahaina's fine dining and shopping. Interiors by award-winning designer Mary Philpotts blend marble, Bella Pietra stone, mahogany, and Australian koa floors into a four-bedroom-suite habitat that is a feast for the senses. Designed to combine with an adjacent home for a total of eight suites on over half an acre with 150 feet of beachfront, it can become an even more extraordinary island estate. \$9,900,000.
